Position: Frontend Developer

Company: Redcliffe Labs (www.redcliffelabs.com)

Location: Noida, Uttar Pradesh

Industry: Healthcare

Position Overview:

We are seeking an experienced and passionate **Frontend Developer** with 3–4 years of professional experience to join our technology team. You'll work closely with designers, backend developers, and product managers to bring seamless user experiences to life.

Key Responsibilities:

- Translate UI/UX designs into high-quality, responsive code using modern frontend technologies
- Build reusable components and front-end libraries for future use
- Optimize components for maximum performance across a vast array of web-capable devices and browsers
- Collaborate with cross-functional teams to deliver scalable, high-impact features
- Maintain code integrity, organization, and best practices
- Troubleshoot and debug application issues as they arise

Qualifications:

- Bachelor's degree in **computer science**, **Information Technology**, or a related technical field
- 3–4 years of proven experience in frontend web development
- Solid understanding of **software development principles**, **design systems**, and **user-centric development**
- Certifications in modern JavaScript frameworks (React, Angular, etc.) are a plus

Skills:

- Proficiency in **HTML5, CSS3, JavaScript (ES6+)**
- Hands-on experience with **React.js**, **Redux**, or other component-based libraries
- Familiar with **RESTful APIs**, **Git**, **Webpack**, and **Agile development**
- Strong debugging and performance tuning skills
- Experience working with **Figma**, **JIRA**, **Bitbucket**, etc.
- Good understanding of **responsive design** and **cross-browser compatibility**
